

NITHEESH VELLAIYAN

Java Full Stack Developer

mail-nitheesh.codes@gmail.com | 9500911807 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Java Full Stack Developer with hands-on experience building scalable web applications using Java, Spring Boot, Hibernate, SQL, and React.js. Skilled in designing RESTful APIs, implementing secure authentication systems, and developing end-to-end full-stack solutions. Passionate about clean code, problem-solving, and software engineering best practices.

SKILLS

Programming & Core: Java (OOPs), Collections Framework, Exception Handling, Multithreading

Backend: J2EE, JDBC, JSP, Hibernate, Spring Framework, RESTful APIs

Database: SQL, MySQL, PostgreSQL, Database Design

Web Technologies: HTML, CSS, JavaScript (ES6+), Bootstrap, React (v19)

Developer Tools: Git, GitHub, Maven, Postman, VS Code, Eclipse

AI Tools: Prompt Engineering, AI-assisted Development

Deployment & Cloud: Vercel, Render, Netlify, Firebase

Soft Skills: Problem Solving, Critical Thinking, Communication, Team Collaboration

INTERNSHIP EXPERIENCE

QSpiders Training Institute, Bangalore — Java Full Stack Developer Intern

FEB 2026 – MAY 2026

- Developed Core Java applications (OOP, Collections, Exception Handling, Multithreading) in a structured enterprise simulation environment; wrote and optimized PL/SQL queries — stored procedures, triggers, and cursors — on Oracle/MySQL databases simulating banking-grade transactional data handling and integrity checks.
- Built Spring Boot RESTful APIs with JDBC integration using Controller → Service → DAO layered architecture; practiced Git/GitHub version control (branching, merging, conflict resolution) with Linux/Unix shell scripting for process automation and gained exposure to CI/CD pipeline concepts via Jenkins.

The Skybrisk — Web Developer Intern (Remote)

FEB 2026 – MAY 2026

- Developed and deployed responsive web applications as part of a structured internship program, implementing modern front-end technologies and UI/UX best practices to deliver functional, user-centric digital products.
- Collaborated on real-world client projects at The Skybrisk, gaining hands-on experience in the full web development life cycle — from design and development to testing and deployment — under the mentorship of industry professionals.

PROJECTS

Nova Bank — Online Banking App <https://nova-bank-nine.vercel.app/dashboard>

- Tech Stack: Java, Spring Boot, Spring Security, JWT, MySQL, React, Axios
- Built a full-stack banking app using Java Spring Boot REST APIs, Spring Security 6 with JWT-based auth, and role-based access control for Admin/Customer roles; tested 30+ endpoints via Postman.
- Engineered Axios interceptors for automatic JWT attachment and 401 handling, backed by a layered Spring Boot architecture with global @ControllerAdvice exception management.

Golf Charity Subscription Platform <https://golfcharitysubscriptionplatform.vercel.app>

- Architected a service-oriented subscription engine managing full membership lifecycle — activation, renewal, cancellation, and tier upgrades — through well-defined backend service contracts.
- Engineered secure payment and charitable contribution flows with transactional integrity, ensuring atomic fee processing and real-time charity allocation calculations.

Nimbus ERP — Enterprise Resource Planning System <https://erp-system-five-blush.vercel.app>

- Designed a normalized relational schema across product, customer, order, and invoice entities with referential constraints and optimized query performance.
- Engineered server-side business logic for sales order lifecycle — inventory validation, order computation, invoice generation — via a RESTful API-driven full-stack architecture.

AWARDS & LEADERSHIP

GOEV — Team Lead & System Control Software Lead | College-Sponsored Project

- Owned the complete software domain; engineered and optimized Vehicle Control Unit (VCU) algorithmic logic and digital dashboard as Team Leader of a 16-member cross-functional team.

Department Representative & Treasurer

- Engineered and maintained official departmental symposium websites end-to-end, delivering continuous technical support for academic and co-curricular events.

EDUCATION

- B.E. — Electronics & Communication Engineering | 2022 – 2026 | CGPA: 8.1**
- Sree Sakthi Engineering College, Coimbatore
- Higher Secondary Education | 2020 – 2022 | Government Higher Secondary School, Namakkal | 79%**

CERTIFICATIONS

- UI/UX Development — ICT Academy, Infosys | Cloud Computing — NPTEL | Web Developer Intern (Remote) — The Skybrisk
- Java Full Stack Developer Intern — QSpiders Training Institute, Bangalore
