NITHEESH VELLAIYAN

Java Developer

mail:nitheesh.codes@gmail.com | 9500911807 | linkedin.com/in/nitheesh-vellaiyan-996159256 | https://nitheeshcodes.netlify.app

SUMMARY

Results-driven Java Developer with strong expertise in object-oriented programming, service-oriented backend architecture, and scalable system design. Skilled in subscription lifecycle management, secure transaction processing, relational database integration, and RESTful API development. Applies Java (OOPs) principles to engineer maintainable, high-performance backend services. Committed to clean code practices, data integrity, and AI-assisted workflow optimization.

SKILLS

Programming & Core Logic: Java (OOPs), Python (Tkinter, OpenCV, MediaPipe, PyAutoGUI)
Backend & Database: SQL,JDBC, REST API Integration
Web Technologies: HTML, CSS, JavaScript, Bootstrap
Tools & Cloud: Git, GitHub, Netlify, Firebase
AI & Workflow: Prompt Engineering, ChatGPT, AI-assisted Development, Workflow Optimization using AI
Soft Skills: Problem Solving, Critical Thinking, Communication, Team Collaboration, Willingness to Learn

PROJECTS

Golf Charity Subscription Platform https://golfcharitysubscriptionplatform.vercel.app

- Architected a service-oriented subscription engine managing full membership lifecycle — activation, renewal, cancellation, and tier upgrades — through well-defined backend service contracts.
- Engineered a secure payment and charitable contribution flow with transactional integrity, ensuring atomic processing of member fees and real-time charity allocation calculations.

NimbusERP — Enterprise Resource Planning System *https://erp-system-five-blush.vercel.app/login*

- Designed and normalized a relational database schema across product, customer, order, and invoice entities, enforcing referential constraints and optimizing query performance.
- Engineered server-side business logic for end-to-end sales order lifecycle — inventory validation, order computation, and invoice generation — within a full-stack system with RESTful APIs.

LocalBiz — Location-Based Business Directory *https://github.com/Nitheeshnkl/LocalBiz*

- Architected a type-safe backend service layer to serve concurrent multi-category, location-filtered business queries with consistent, low-latency response contracts.
- Integrated third-party mapping APIs via structured interface contracts, demonstrating clean REST API integration and scalable data retrieval design.

AWARDS & LEADERSHIP

GOEV — System Control Software Lead, College-Sponsored Project

- Owned the complete software domain; engineered and optimized Vehicle Control Unit (VCU) logic , demonstrating applied algorithmic development and systems integration expertise as Team Leader of a 16-member cross-functional team.

Department Representative & Treasurer

- Engineered and maintained official departmental symposium websites end-to-end, delivering continuous technical support for academic and co-curricular events.

EDUCATION

B.E. — Electronics & Communication Engineering *2022 – 2026*
Sree Sakthi Engineering College, Coimbatore | CGPA: 8.5
Higher Secondary Education 2020 – 2022
Government Higher Secondary School, Namakkal

CERTIFICATIONS

UI/UX Developing — ICT Academy, Infosys | Cloud Computing — NPTEL | Generative AI & ChatGPT — GeeksForGeeks
